Assumptions Used in Arriving at Fiscal Estimate <p>The proposed rules establish requirements for the installation and maintenance of carbon monoxide alarms in one-and two-family dwellings. The requirements reflect the statutory mandates of 2009 Wisconsin Act 158. For consistency, they are modeled after other rules relating to smoke detectors in dwellings and carbon monoxide detectors in tourist rooming houses. The promulgation of these rules will not affect department revenue or expenditures.</p> <p>Act 158 does affect the owners of one- and two-family dwelling. The department does not believe the rules will increase the effect on small businesses more than that imposed by the Act. Battery or plug-in type carbon monoxide alarms typically range in cost from \$25 to \$50. New construction installation costs for a hard-wired type carbon monoxide alarm with battery backup and interconnection ranges from \$90 to \$110. Combination carbon monoxide alarms and smoke alarms are also available. Smoke alarms are currently required for residential occupancies. The use of combination carbon monoxide alarms and smoke alarms should result in installation and labor cost savings over that for separate systems.</p>			
Long-Range Fiscal Implications No long range fiscal implications are anticipated.
